## SUMMARY

Talented Programmer / Software Developer equipped with great coding, debugging and web design abilities. Experienced with HTML, CSS, Python, Java, SQL to accomplish project goals. Works great with team members under Agile and Scrum frameworks.

## SKILLS

- Code Development
- Technical Writing
- Testing and Debugging
- Software Design
- UX Design Principles
- Cross-Functional Collaboration
- Front-End Development

## EXPERIENCE

Programmer/Software Engineer, Zion IT College , January 2018-Current

Abuja

- Brought mock-ups to life with HTML, CSS and JavaScript.
- Designed websites, portals and large-scale web applications for multiple clients.
- Provides programming, technical and data analysis including debugging moderate to complex programming logic.
- Identifies and resolves or escalates and communicates operational failures to the necessary parties, e.g. technical services, vendors, IT Management, stakeholders etc.
- Introduced cloud-based technologies into Python development to expand on-premise deployment options.
- Worked with server-side and front-end technologies and leveraged common design patterns to code dynamic and user-friendly systems.
- Assessed code during testing stage to determine potential glitches and bugs.
- Worked closely with systems analysts, engineers and programmers to understand limitations, develop capabilities and resolve software problems.

## EDUCATION AND TRAINING

Bachelor of Science

Computer Science, University of Abuja 2020
